New York, October 29, 2020 – Oppenheimer Holdings Inc. (NYSE: OPY) (the "Company" or "Firm") today reported net income of \$15.6 million or \$1.25 basic earnings per share for the third quarter of 2020 compared with net income of \$3.9 million or \$0.31 basic earnings per share for the third quarter of 2019. Revenue for the third quarter of 2020 was \$276.3 million compared to revenue of \$234.8 million for the third quarter of 2019.

Albert G. Lowenthal, Chairman and CEO commented, "I am very pleased with the continued strong operating results of the business despite the challenges in the current environment. The capital markets business outperformed with a record quarter for revenue while the wealth management business continued to produce solid operating returns based on increased commission activity and higher fee income from assets under management despite the headwinds from ultra-low short-term interest rates. Investment banking had its best quarter ever as the Firm increased its market share during a robust period for both equities and debt issuances in the U.S. capital markets. Our continued investment in and commitment to the capital markets business positioned us extremely well to participate in an environment with a significant demand for capital raising. M&A activity also picked up during the period with several notable transaction advisory and placement fees.

Equities sales and trading activity continued to be a bright spot as volatility remained elevated during the period. Our investment in public finance continues to reap returns as we secured appointments in larger and more prominent transactions. Despite a sell-off late in the quarter, the broader equities markets were up 8.5% during the period contributing to record assets under management at September 30, 2020, which will drive our advisory fee revenue for the fourth quarter of 2020. In addition, the Firm was able to take advantage of the current low interest rate environment by refinancing our outstanding long-term debt with a lower coupon rate and a net pay down of \$25 million which will save \$3.3 million in interest costs on an annual basis."

# **Highlights**

- Increased revenue of 17.7% due to significantly higher underwriting revenue, large M&A fees, increased institutional equities sales and trading activity, higher retail participation, and higher advisory fees
- Compensation expense increased 25.4% due to higher production, incentive, and deferred compensation costs partially offset by lower share-based compensation costs
- Non-compensation expenses were 15.7% lower primarily due to lower interest, travel and entertainment, and conference costs partially offset by charges related to the refinancing of the Firm's long-term debt
- Book value and tangible book value per share reached record levels at September 30, 2020
- Private Client pre-tax profit margin was 18.3% reflecting strong underlying business fundamentals
- Client assets under administration and under management were both at record levels at September 30, 2020
- The Investment Banking Division had its best ever revenue quarter helping to drive a record revenue quarter for the Capital Markets segment
- The Firm refinanced its outstanding long-term debt during the period which resulted in a one-time charge of \$2.8 million. Going forward, the Firm will save \$3.3 million in interest costs on an annual basis

## **Private Client**

Private Client reported revenue for the current quarter of \$141.1 million, 7.2% lower compared with a year ago due to the impact of lower interest rates. Pre-tax income of \$25.8 million in the current quarter resulted in a pre-tax profit margin of 18.3%. Financial advisor headcount declined to 1,010 at the end of the current quarter compared to 1,043 in the prior quarter, although productivity of our financial advisors increased reflecting higher individual production levels.

#### Revenue:

- Retail commissions increased 6.1% from a year ago as a result of increased volatility and client participation
- Advisory fees increased 8.7% due to higher assets under management at June 30, 2020 compared with June 30, 2019
- Bank deposit sweep income decreased \$24.3 million or 84.0% from a year ago due to lower short-term interest rates partially offset by higher average cash sweep balances
- Interest revenue declined 31.4% from a year ago due to lower short-term interest rates partially offset by higher average margin balances
- Other revenue increased 131.0% primarily due to increases in the cash surrender value of companyowned life insurance policies

# Total Expenses:

- Compensation expenses increased 5.1% primarily due to increased production and deferred compensation costs partially offset by lower share-based compensation
- Non-compensation expenses decreased 18.3% primarily due to lower interest costs associated with the bank deposit sweep program

# **Coronavirus Pandemic ("COVID-19")**

The Company continues to monitor the effects of the pandemic both on a national level as well as regionally and locally and is responding accordingly. In addition, we continue to provide frequent communications to clients, employees, and regulators. We have adopted enhanced cleaning practices and other health protocols in our offices, taken measures to significantly restrict non-essential business travel and have practices in place to mandate that employees who may have been exposed to COVID-19, or show any relevant symptoms, self-quarantine. In early March 2020, the Company executed on its Business Continuity Plan whereby the vast majority of our employees began to work remotely with only "essential" employees reporting to our offices. We accomplished this by significantly expanding the use of technology infrastructure that facilitates remote operations. Our ability to avoid significant business disruptions is reliant on the continued ability to have the vast majority of employees work remotely. To date, there have been no significant disruptions to our business or control processes as a result of this dispersion of employees. Recent outbreaks in various states indicate that COVID-19 will continue to impact the economy and, by extension, our business, well into 2021. We currently anticipate that a large number of our employees will continue to work remotely for the indefinite future.
